

## A more than fair day at the N. Stonington Fair By Gerry Lynn

Finally, after being deluged at Bennington and Saratoga, we had a perfect day at the fair. Twelve of our old cars showed up with families along for the ride. North Stonington farmers Ralph & Anne Roark liked the fair so much that they even brought two cars.

We were parked in our usual spot which gave us great views of a musical stage and the high wire act. We also had ring side seats to the pig races, and no one complained when the pigs stopped trotting to root up potential food from the track.

Thankfully, we had great shade with plenty of food and drink for that hot sunny day. Among the members who brought their cars were Frank, Ken, Dennis, Vicki, Dave P., Norm, David, Al, Tom L., and me as I remember but I must be leaving someone out. N. Stonington resident and past club president Bob DeGoursey also joined us, and it was great to catch up with him.

We have our yearly visit to the fair because the club originally had meeting locations at the grange hall and the senior center, so we still have a connection to the town. So now we can save our fond memories till the N. Stonington fair 2025.
